VGB Support to EEC

VGB Power Tech e.V. is the European technical association for power and heat generation. The association is based on a voluntary membership of companies active in the field of power and heat generation. VGB has supported the vision of an expert platform in the Indian Power Sector since it was created under the Indo-German Energy Forum. VGB is the part of the core group that developed the concept. Thus VGB supports GIZ with technical experience to bring the EEC into a lively platform for the Indian Power Sector. A Memorandum of Understanding between VGB and CEA was signed for the successful Indo-German cooperation in EEC project. VGB acts as the point of contact for EEC to access the German power generation industry and provides detailed A to Z information about the energy supply in Germany, which also comprises the coordination of the exchange of experiences from the German side.
