

Water Balance Audit Report – Four Coal Based Thermal Power Plants

KTPS, BTPS, STPS & Barh STPS

Executing Agency

Contents

Executive Summary	1
1. Introduction	5
1.1 Excellence Enhancement Centre for Indian Power Sector (EEC)	7
1.2 Central Power Research Institute (CPRI)	7
1.3 The Technical Study on Water Optimization.....	8
1.4 Objectives of the proposed study	9
1.5 Selection of the plant and their locations	10
1.5.1 Kota Thermal Power Station	11
1.5.2 Sikka Thermal Power Station.....	11
1.5.3 Bhusawal Thermal Power station	12
1.5.4 Barh Super Thermal Power Station.....	12
1.6 Scope of the study	13
2. Approach and Methodology	14
2.1 Water Balance	15
3. Results and analysis: Kota Thermal Power Station	21
3.1 Water Balance: Kota Thermal Power Station.....	21
3.2 Fresh Water Balance- Kota Thermal Power Station	34
3.2.1 Fresh Water Balance	34
3.2.2 Results & Analysis.....	37
3.2.3 Suggested Metering points.....	38
3.3 Quality Analysis	38
3.3.1 Water and Waste Water Quality	38
3.4 Water audit findings: KTPS (Unit VII)	41
3.4.1 Good Initiatives by the KTPS	41
3.4.2 Observations on water distribution system:.....	41
3.4.3 Suggested Action Points (KTPS, Unit VII):.....	42
3.4.4 Potential area of water saving:	43
3.4.5 Summary of water saving projects at KTPS, Unit VII	47
3.4.6 Specific water consumption for Unit VII, KTPS:.....	48
4. Result & Analysis: Sikka Thermal Power Station.....	51
4.1 Water Balance – Sikka Thermal Power Station	51
4.2 Sweet Water Balance	64
4.2.1 Results & Analysis.....	66

4.2.2	Suggested Metering points.....	67
4.3	Quality Analysis.....	67
4.3.1	Water and Waste Water Quality.....	67
4.4	Water audit findings - STPS Unit III (250 MW).....	70
4.4.1	Good Initiatives by the STPS.....	70
4.4.2	Observations on water distribution system:.....	70
4.4.3	Suggested Action points (STPS, Unit III).....	71
4.4.4	Potential area of water saving:.....	72
4.4.5	Summary of water saving projects at STPS (unit III).....	73
4.4.6	Specific water consumption for Unit III, STPS:.....	73
5.	Result & Analysis: Bhusawal Thermal Power Station.....	77
5.1	Water Balance – Bhusawal Thermal Power Station.....	77
5.2	Fresh Water Balance- Bhusawal Thermal Power Station.....	91
5.2.1	Fresh Water Balance.....	91
5.2.2	Results & Analysis.....	94
5.2.3	Suggested Metering points.....	95
5.3	Quality Analysis.....	95
5.3.1	Water and Waste Water Quality.....	95
5.4	Water audit findings - BTPS Unit IV (500 MW).....	98
5.4.1	Good Initiatives by the BTPS.....	98
5.4.2	Observations on water distribution system:.....	98
5.4.3	Suggested Action Points (BTPS, Unit IV):.....	99
5.4.4	Potential area of water saving:.....	99
5.4.5	Summary of water saving projects at BTPS (unit IV).....	103
5.4.6	Specific water consumption for Unit IV, BTPS:.....	103
6.	Results and analysis: Barh Super Thermal Power Station.....	107
6.1	Water Balance: Barh Super Thermal Power Station.....	107
6.2	Fresh Water Balance- BSTPS.....	126
6.2.1	Fresh Water Balance.....	126
6.2.2	Results & Analysis, BSTPS, Unit V.....	128
6.2.3	Suggested Metering Points.....	129
6.3	Quality Analysis, BSTPS, Unit V.....	129
6.3.1	Water and Waste Water Quality.....	129
6.4	Water audit findings: BSTPS (Unit V).....	132

6.4.1	Good Initiatives by the BSTPS	132
6.4.2	Observations on water distribution system, BSTPS, Unit V	132
6.4.3	Summary of water saving projects at BSTPS, Unit V.....	133
6.4.4	Specific water consumption for Unit V, BSTPS:	133
7.	Recommendations for the power plants regarding efficient use of water	135
	Abbreviations	144
	List of Figures	146
	List of Tables	149
	List of Boxes.....	152
	Annexure I: Design Water Balance of Bhusawal Thermal Power Station for Unit IV & V	153
	Annexure II: Design Water Balance of BSTPS for Stage - II (2 X 660 MW) ...	154
	Annexure III: Overall water stress risk class for KTPS, BTPS, STPS & Barh STPS	155
	Annexure IV: Glossary	167
